

Husqvarna LG 400

LG 400 is a powerful, reliable reversible plate compactor, developed for efficient compaction of deep and medium-deep granular soil. It makes an effective alternative or complement to rollers when compacting in confined areas. The Lombardini 15LD 440 diesel engine features an electric start and ergonomic, service-friendly design. A compaction indicator is optional.

Engine

Motor/engine model	4-stroke air-cooled
Output power (As rated by the engine/motor manufacturer)	6.2 kW
Power/fuel type	Diesel

Dimensions

Plate width	650 mm
Weight	436 kg

Specifications

Speed forward max	0.03 km/h
Speed	25 m/min
Starter	Electric
Centrifugal force	52 N

Sound and noise

Sound power level, guaranteed (LWA)	108 dB(A)
Sound pressure level at operators ear	107 dB(A)

Features for LG 400

Plates made to last

The plates are made from the extremely durable and wear-resistant Hardox 400 steel. The special design keeps rocks from getting stuck between the plate and frame.

Strong protection, easy transportation

The heavy-duty steel frame protects the engine and transmission. The frame is also equipped with a lifting eye for easy transportation.

Know when you're done

The optional compaction indicator tells you when the ground is ideally compacted and when to move on to the next task, saving you time and money.

Ergonomics and efficiency

The vibration damping handle allows you to work efficiently for hours.
