FORWARD PLATE LX 90

Art nr: 967 89 71-01

LX 90 is a lightweight, fast-operating round plate compactor, developed for efficient compaction of sand, gravel, and mixed soils. It is ideal for use inside of corners, manholes, and trenches where you need to change direction and turn around easily. As alternative to rammers and reversible plate compactors, this gives you many benefits in one machine.
