

Husqvarna HA

Husqvarna HA is a series of concrete vibrator heads developed for handy operation. With its low weight connected to the AME 600 portable electric drive unit, it is ideal for smaller pours, slabs and beams in housing constructions. Several vibrator head diameters and flexible shaft lengths are available to suit your application.

High productivity

The radius of action is 8 x diameter for efficient concrete vibration.

Optimal diameter

The vibrator head is available in various diameters to suit your job perfectly.
