

Husqvarna LG 204

LG 204 is a compact, lightweight yet powerful reversible plate compactor developed for smaller jobs, such as driveways and pathways, private house projects and narrow trenches. It is the ideal machine to use when macadam beds are thinner and you need nimble, responsive handling. The Hatz 1B20 diesel engine with electric start reduces fuel consumption and emissions, while quality components reduce vibrations. It is equipped with a durable Hardox 400-steel bottom plate.

Easy operation

The forward/reverse lever and fixed handle grip make handling easy on all surfaces. You don't have to push/pull constantly during operation.

Strong protection, easy transportation

The heavy-duty steel frame protects the engine and transmission. The frame is also equipped with a lifting eye for easy transportation.

Plates made to last

The plates are made from the extremely durable and wear-resistant Hardox 400 steel. The special design keeps rocks from getting stuck between the plate and frame.

Low handle vibration levels

Great engineering and quality components minimise handle vibration levels and strain, therefore contributing to a safer, more productive and enjoyable workday.

FEATURES

- Plates made to last
- Strong protection, easy transportation
- Easy operation
- Low handle vibration levels

Technical Specifications

ENGINE

Motor/engine model	4-stroke air-cooled
Power output	3.1 kW
Exhaust emissions (CO2 EU V)	987 g/kWh
Power/fuel type	Diesel
Fuel tank volume	NaN gal (US)

SPECIFICATIONS

Speed	22 m/min
Starter	Electric

DIMENSIONS

Plate length (mm)	600 mm
Plate width	600 mm
Weight	251 kg

SOUND AND NOISE

Sound power level, guaranteed (LWA)	106 dB(A)
Sound pressure level at operators ear	105 dB(A)

PACKAGING

Packaging length	600 mm
Packaging width	800 mm
Packaging height	1430 mm
Packaging volume	686 dm ³
