

## Husqvarna BT 90 Pneumatic Set

The Husqvarna BT 90 pneumatic truss screed is engineered to handle floors, up to 25 meters wide, runways and bridges that need compaction, levelling and finishing. Easy to assemble by a single operator and adjust camber. Many configurations possible with accessories, such as winches and outriggers, to cover your day to day needs.

### Engineered to last

Triangular frames, and square tubes provide better rigidity. Oscillating bearing with grease nipples extend the product life-time and serviceability.

### Easy setup

Easy to assemble by a single operator.

### Smart design

A precision turn-buckle allows to camber the screed sections independently.

### Built to perform

Low profile steel frame ensures durability. Low center of gravity gives stability in low slump concrete.

## FEATURES

- Smart design
- Easy setup
- Engineered to last
- Built to perform
- Even, continuous pull

### Technical Specifications

#### PACKAGING

Packaging length	1200 mm
Packaging width	800 mm
Packaging height	540 mm
