

## Husqvarna BE 30

The powerful Husqvarna BE drive unit together with BD double-beam screeds produce deep vibration down to 150 mm. With BD double beam lengths from 3.2 m to 6.2 m you can work on any medium to large flooring constructions sites. You can use the BE drive unit for in-depth vibration and levelling. Electric or petrol vibrating units provide versatility in regards to job site conditions.

### Efficient vibration

Adjustable vibration force together with 100 mm profile height produce in-depth vibration down to 150 mm thickness. The lightweight profile allows a higher stroke, enabling efficient work in different conditions.

### Flexibility

Detachable electric or petrol drive units provide versatility in regards to job site conditions. They can both power all BD double-beam screed lengths.

## FEATURES

- Flexibility
- Efficient vibration

### Technical Specifications

#### ENGINE

Motor/engine manufacturer	Honda
Motor/engine model	GX120
Output power	2.4 kW
Output power (As rated by the engine/motor manufacturer)	2.4 kW
Fuel tank volume	2 l
Exhaust emissions (CO2 EU V)	976 g/kWh
Fuel tank volume	0.53 gal (US)

#### SPECIFICATIONS

Direction of rotation	Counterclockwise
Start system	Recoil starter

#### PACKAGING

Packaging length	800 mm
Packaging width	600 mm
Packaging height	490 mm
