

Husqvarna BV 20 G

BV 20 G is a petrol-powered, vibrating walk-behind concrete power screed designed to provide a high-quality slab. The fuel-efficient Honda engine delivers reliable operation, and the non-corrosive aluminium alloy finish ensures easy maintenance. For perfect results, the vibrations can be adjusted with the engine speed. It can be used directly on thin slabs up to 150mm without vibrating beforehand

Long reach

The standard inter-connectable handle makes it possible to work from outside the slab with a long reach. The optional extra handle extends your reach even further.

Adjust for perfect results

The vibration force can be adjusted with motor speed to produce perfect results.

Quality that lasts

There's little need for maintenance due to lightweight, non-corrosive aluminium profiles.

Professional results, every time

The rigid bottom plate features a V-shaped profile that drives excess concrete backwards, which refills operator foot marks.

FEATURES

- Quality that lasts
- Adjust for perfect results
- Long reach
- Professional results, every time

Technical Specifications

ENGINE

Motor/engine manufacturer	Honda
Output power (As rated by the engine/motor manufacturer)	0.72 kW
Fuel tank volume	0.58 l
Exhaust emissions (CO2 EU V)	1203 g/kWh
Fuel tank volume	0.15 gal (US)

SPECIFICATIONS

Working width	200 cm
Vibration value	3.2 m/s ²

SOUND AND NOISE

Sound level	91 dB(A)
Sound power level, measured	91 dB(A)

PACKAGING

Packaging length	2200 mm
Packaging width	500 mm
Packaging height	540 mm
Packaging volume	594 dm ³
