

Husqvarna CG 200

Husqvarna's CG 200 is a highly productive scarifier, designed to remove concrete fast and aggressively. Applications include removing coatings (heavy floor tile mastics and epoxy materials), light or heavy milling, grooving and texturing of walkways to make them slip resistant, removing trip hazards, and levelling misaligned concrete joints and uneven surfaces. Equipped with vibration-dampening handles for operator comfort, hour meter, height adjustment for precise depth of operation and central exhaust for dust extraction for a cleaner working environment. CG 200 is available in electrical (1-phase) or petrol versions.

Ergonomic working position

Adjustable handlebar makes the setting of an ergonomic position easy.

Convenient controls

Automatic reset to the selected cutting depth and quick release of the drum from the ground.

Easy to change tools

The removable side cover makes changing the drum easy.

Healthier working environment

The central exhaust for dust extraction makes a cleaner working environment possible.
