

Husqvarna DS 40 Gyro

DS 40 Gyro is our telescopic stand system for small core drills. The system is easy to use, and quick to set-up and dismount, saving both time and money. It is ideal for core drilling up to 150 mm diameter with a travel length of 600 mm. With a single setup you can drill numerous holes in various positions, upside down drilling, angle drilling and horizontal drilling. It is also ideal for stitch drilling.

Features for DS 40 Gyro

Modular and flexible

The drill column is easy to turn and tilt meaning it is ideal for drilling numerous holes at almost any angle, providing several combination options.

Quick mounting of drill motor

The easy mounting of the drill motor means quick setup.

Profitable and efficient setup

Several drilling options with one setup.

Installed by stanchion

The drill rig is installed between floor and ceiling, with no need of anchoring. This means it is quick to setup and is gentler on the surroundings.
