

Husqvarna DS 500

DS 500 is a medium-size drill stand, suitable for a wide range of professional core drilling operations. Combines high stability and sturdiness with surprisingly low weight. The quick connection features and low weight make handling easy and efficient. The slim-design carriage with optimised gear ratio works exceptionally well with Husqvarna DM 280, DM 340 and similar high-powered 1-phase drill motors. Recommended for drill bit diameters up to 400 mm.

Drilling equipment

Drill bit diameter, max	500 mm
Drill bit length with recommended drill motor, max	680 mm

Specifications

Column's angling	0-90°
------------------	-------

Dimensions

Travel length, max	706 mm
Product size length	394 mm
Product size width	240 mm
Product size height	1050 mm
Weight	17.6 kg

Features for DS 500

Durable and sturdy

The all-metal design with an optimised setup of steel, aluminium and magnesium components ensures stability and durability without adding unnecessary weight.

Precision and performance

The design of the steel-reinforced extruded aluminum column is optimised for high precision and drilling performance. All hinges have a zero-play design to enable stability over time.

High stability and low weight

The steel-reinforced die cast magnesium base plate ensures rigid anchoring and keeps the overall weight down.

Easy to install and operate

The quick-release coupling for drill motor and easy adjustment of back support angle allow for easy setup and angle drilling. The carriage can easily be removed from the column when needed.
