

Husqvarna®

Husqvarna PG 830 RC

The PG 830 RC is the largest and most powerful remote-controlled floor grinder in the Husqvarna PG-range. The remote control sets the operator free to manage hoses and cables while still grinding, for up to 40% higher productivity. The motorised drive also simplifies transportation. A new 20 hp / 15 kW motor is available in the range which means power is up by 36% compared to the 11 kW motor. This is a powerful choice for most grinding jobs, both industrial and commercial. The planetary drive system and the improved, Husqvarna-only Dual Drive Technology™ deliver extreme productivity. Adjustable weights for extra grinding pressure and LED lights come as option. Suitable for all applications: floor prep, grinding and polishing. The motorised drive enables easy transportation, improved ergonomics and outstanding grinding results. The PG 830 RC is the ultimate choice for the HiPERFLOOR® concrete polishing system. To maximise reliability and reduce maintenance, the vital components of the PG 830 are protected against dust and slurry inside the hermetically sealed grinding head and electrical cabinet.

Motor

Rated input power	16,5 kW
Rated current	30 A
Voltage	380-415 V
Phases	3
Pins	3P+E

Other

Grinding disc diameter	270 mm
Direction of rotation	Independent FWD/REV direction control on both grinding discs and planetary head.
Number of grinding discs	3

Dimensions

Product size length	1410 mm
Product size width	830 mm
Product size height	1155 mm
Weight	652 kg

Features for PG 830 RC

Enhanced Dual Drive Technology™

Husqvarna's unique Dual Drive Technology™ has now even higher disc speed capabilities. It enables you to individually control the speed and direction of the disc rotation and the speed and direction of the grinding head.

Sealed to last

Sealed grinding head with 1000 hrs service interval. No dust or water can intrude to damage components.

Protected electronics

Dust sealed electrical cabinet with external cooling technology.

Low maintenance, smooth operation

Re-designed Dual Drive Technology™ transmission, fully sealed against dust. Self lubricating drive chain.
