## Husqvarna PP 455 E

The electrically powered hydraulic unit PP 455 E is specially developed for the WS 463 wall saw and the CS 2512 wire saw. It's equipped with a water-cooled electric motor providing more efficient sawing, enabling you to work at full capacity for the entire saw process. The electric motor is mounted beneath the tank, providing a low centre of gravity and good stability.

### Motor

Output power (As rated by the engine/motor manufacturer)	25 kW
Rated current	63 A
Voltage	400 V

### Hydraulics

Oil capacity	16 l
Hydraulic oil flow	65 l/min
Hydraulic pressure, max	230 bar

### Dimensions

Weight	139 kg
--------	--------

## Features for PP 455 E

---

### Maximum machine life and power

Hydraulic oil is cooled by a large, 15-litres oil reservoir and 23 cm fan to provide maximum machine life and power.

### Adjustable handles

The handles are vertically adjustable and the power pack can be laid down on its handles during transport as well as operation.

### Easy hose connection

Pressure compensation system makes it easy to connect the hoses with less effort.

### 230 V power outlet

For connection of peripheral equipment (when using 5-pin, 3-phase system).
