

Husqvarna®

A full-page photograph of a construction worker in profile, facing right. The worker is wearing a black helmet with a communication system, safety glasses, and a respirator mask. They are wearing a high-visibility yellow and black safety vest over a grey long-sleeved shirt and black work pants. They are holding a large, orange and black handheld cutting tool against a dark, textured wall. The tool is actively cutting into the wall, with a large circular hole being formed. The background shows a construction site with concrete pillars and a doorway. The lighting is dramatic, with strong shadows and highlights.

HANDHELD CUTTING

PRODUCT BROCHURE

FOR A BETTER WAY OF WORKING

YOUR BUSINESS IS OUR BUSINESS

Whatever the workplace looks like, Husqvarna Construction offer smart, sturdy, high-quality machines that help you cut and drill efficiently and more safely, no matter the conditions. In our range, you'll find versatile and powerful equipment and diamond tools for various types of construction job. All our systems are designed around you, your needs and the demands you face every day.

Our mission is simple – to help you prepare your machine fleet for any challenge and provide fast, smooth support services when something unexpected happens. We make understanding your business our business – and we believe that this commitment and our long experience and expertise can make a defining difference to your operations.

YOUR PARTNER IN PRODUCTIVITY

INCREASE PROFITABILITY

Husqvarna machines are easy to use, fast to get going and always designed to increase your productivity. Together with their sturdy, high-quality design this can optimise uptime, allowing you to be more profitable.

REDUCE OPERATOR FATIGUE

All Husqvarna machines are ergonomically designed for easier, less demanding operation. This means you can work with reduced strain on your body and save energy.

WORK MORE SAFELY

Reducing user and operator risk is our priority. Our machines are meticulously designed and constructed with the aim of keeping you and those around you safer, even in tough working conditions.

OPTIMISED ROI THROUGH VERSATILITY

Because Husqvarna machines are designed to be versatile and compatible, you can take on more jobs in different applications, optimising your return on investment.

AN ACTIVE PARTNER

At husqvarnacp.com you'll find active support and user guides. We also offer product information through channels such as YouTube, Facebook and other Social Media channels.

SMART TODAY, PROFITABLE TOMORROW

Increasing profitability depends on working more productively. The more efficient your working day, the more you can invoice your customers. An effective way to achieve these financial gains is by using high-performing machines and tools. For example, ease of

use and ergonomically designed machines reduce physical strain on the user allowing for longer and more productive working shifts. Also, ensuring you always have some extra diamond tools close at hand means maximum uptime without interruptions.

Investment in new machinery or tools represents a surprisingly small percentage of operational costs. Quite simply, a smart investment in high-performing equipment today may have a positive effect

on your future business. Talk to your Husqvarna representative and let us help you find the solutions that maximise uptime and give your business a real productivity boost.

BATTERY-POWERED PRODUCTS BY HUSQVARNA

Charged with possibilities

When it comes to battery power, we're committed to leading the way. Giving you the high power and performance you expect and deserve. Without fuel, cords and direct emissions. Opening opportunities to take on new tasks and get the job done safely, more quietly and with ease. Experience Husqvarna battery-powered machines – charged with possibilities.

PACE

Powerful. Agile. Cordless. Electric. Get ready for our PACE Battery system to give you high power, even more freedom and flexibility.

PACE BATTERIES AND CHARGERS

The sturdy design of the Husqvarna PACE Battery System enables usage in tough, heavy-duty conditions – indoors and outdoors. It is available in two battery sizes with built-in connectivity and with two chargers. All give you high power, fast charging – and a job well done. So how long do you need to cut?

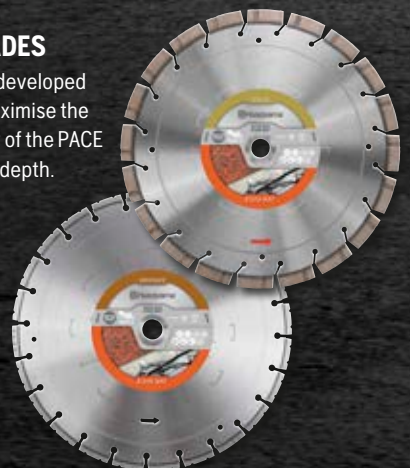

K1PACE POWER CUTTER

The new K1PACE power cutter makes use of the new highly efficient PACE battery system to take on tough tasks. It is also available in a Rescue version.

SPECIALLY DESIGNED BLADES

For the K1PACE power cutter we developed specially designed blades, to maximise the working efficiency of the capacity of the PACE System and maximise the cutting depth.

**COMING
SOON!**

DE 120 PACE DUST EXTRACTOR

Get ready for the DE 120 PACE – an H class dust extractor for heavy-duty action and powered by PACE. It is designed for larger hand-held cutting and drilling equipment and floor grinders, as well as core drills on a stand.

i-SERIES

Our i-Series is a truly versatile range of equipment for a variety of different construction applications and compatible with a broad range of Husqvarna's Forest and Garden products.

i-SERIES BATTERIES AND CHARGERS

Batteries with both excellent runtime and capacity to weight ratio. Chargers with quick charging and active battery cooling.

BV 30i SCREED

Enjoy efficient, sustainable concrete finishing with the fully compatible BV 30i screed. Extra suitable for indoor projects.

K 535i POWER CUTTER

K535i features excellent power-to-weight ratio and low vibrations. It is adaptable for both wet and dry cutting.

DM 540i DRILL MOTOR

DM540i is a powerful drill motor optimised for handheld drilling. Suitable for both wet and dry drilling and possible to fit to a stand.

WL 8i WORK LIGHT

The work light WL 8i is adjustable in various directions and can be equipped with a diffuser and mounted on a tripod for convenient and flexible use.

WT 15i WATER TANK

WT15i is a compact and easy-to-use 15 litre water tank with a compartment for a battery charger.

DE 110i DUST EXTRACTOR

The battery-powered DE 110i is compact & easy to use, with connectivity features. It matches the power tools of the i-Series system perfectly.

DIAMOND TOOLS FOR THE i-SERIES BATTERY PRODUCTS

For K 535i and DM 540i, our specially designed blades and thin-walled drill cores make sure you get the job done efficiently.

EXPERIENCE PRIME™

PERFORMANCE

As your business develops, Husqvarna PRIME™ equipment allows you to combine and use machines more efficiently and profitably. This powerful, high-frequency range for cutting, wall-sawing and drilling offers power and reliability and enables high productivity and increased turnover. Featuring our new generation of handheld equipment and the extremely sturdy PP 70 power pack, you can enjoy increased performance exactly where and when you need it.

DM700

WS220

K7000

K7000 RING

K7000 CHAIN

PP65

PRIME™

Powerful.
Revolutionary.
Intelligent.
Modular.
Electric.

POWERFUL

Comes with a maximum power of 6.5 kW. Operates with both 3- and 1-phase power.

INTELLIGENT

Automatic detection and setup of connected equipment and power source makes handling easy.

MODULAR

The power pack is separated from the cutting equipment which gives less exposure to dirt and vibrations.

ELECTRIC

Handles unstable current.

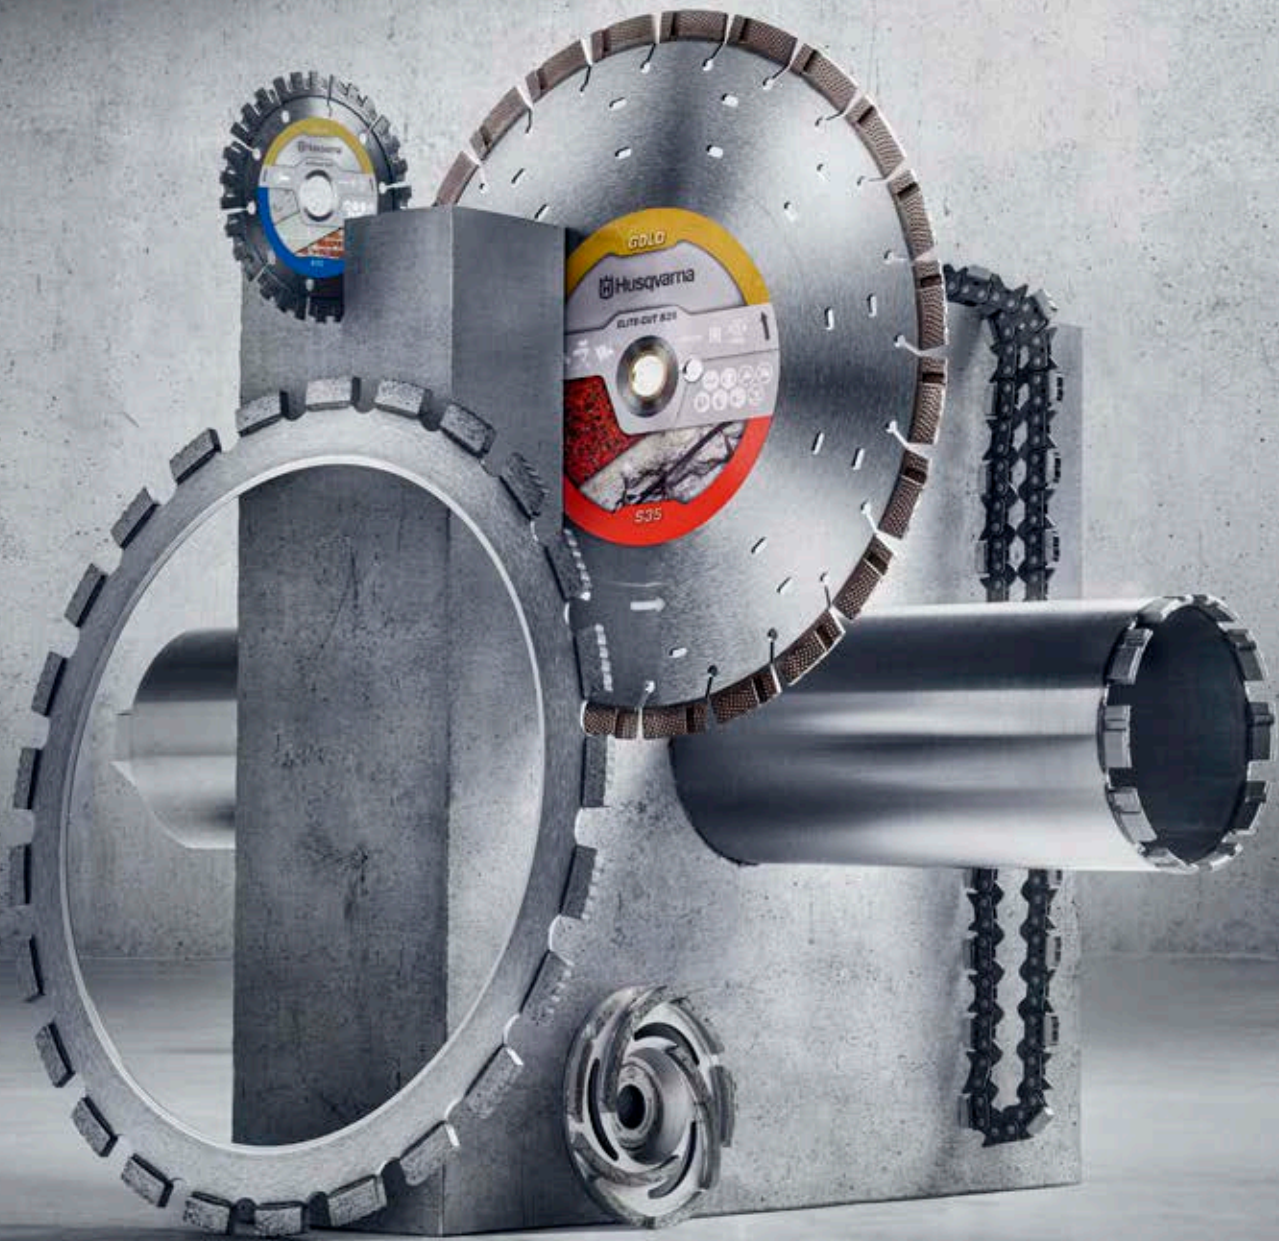

PP 70

FEELS LIKE BUTTER

Reinforced concrete, granite, bricks and blocks – where others see a hard surface, we see something else. Imagine the feeling of being able to transform rock hard material into something like butter. The sense of being in control. And working with confidence. Knowing that you can get tough jobs done safer and with ease. Choose your Husqvarna diamond tool – and feel it.

**CHOOSE YOUR HUSQVARNA DIAMOND TOOL
– AND FEEL IT**

PERFECTLY BALANCED, POWERFULLY BUILT

Because they're designed around user demands, our power cutters are perfectly balanced, easy to use and feature impressive power to weight ratios. Choose a Husqvarna power cutter and get ready to work with high precision, optimal efficiency and less physical strain.

TAKE YOUR POWER CUTTING TO THE NEXT LEVEL

To let you enjoy safer, more efficient power cutting, we've devised a system approach that allows you to get more from your working shift. With tools and accessories including VAC systems, generators and pipe clamps, we can help you find everything you need to take productivity to the next level.

IMPROVED WORKING ENVIRONMENT

Enjoy a cleaner, safer working environment with this powerful, efficient industrial wet and slurry vacuum. Where most wet vacs can only handle water, the W 70 P can deal with liquids such as concrete slurry, oils and machining coolants and pumping out can take place at the same time as suction.

INCREASED PRECISION AND SAFETY

Our pipe cutting clamp system is designed specifically for use with deep cutting Husqvarna ring and chain power cutters. It helps deliver precision cutting, optimal productivity and is constructed to reduce the risk of kickback.

HIGH OUTPUT, REDUCED USER STRAIN

Optimise productivity and enjoy high output and better results with our powerful K 7000 electric handheld cutter. Its well-balanced body and low vibrations ease strain on the user and it can be powered using the PP 70 power pack.

VERSATILE POWER WHERE YOU NEED IT

PP 70 is a versatile, sturdy and compact electric power pack with a user-friendly interface and digital menu. The PRIME™ power packs connects to both 3- and 1-phase power.

HUSQVARNA K 770

Husqvarna K 770 is a great example of our approach to designing power cutters. This powerful all-round machine has features that make it one of the best power cutters on the market. It's equipped with the semi-automatic SmartTension™ system that allows for optimal power transmission, minimum wear and maximum belt life. It also offers reliable starting and exceptionally low vibrations, contributing to an easier, more productive working day.

OPTIMISED UPTIME

A strong Poly-V belt combined with our maintenance-free starter DuraStarter™ and efficient filter-system Active Air Filtration™ ensures long service intervals, optimising both uptime and profitability.

STURDY AND TOUGH

The cast magnesium crankcase has a three-bolt joint to attach the cutting head, enabling higher torsional rigidity and sturdy performance even on tough jobs.

LIGHT AND POWERFUL

A light, compact and powerful machine with superior power-to-weight ratio, K 770 has all the characteristics required to deliver an easier working day and better cutting results.

K 770

K 770 SmartGuard

ENHANCED SAFETY

Equipped with SmartGuard, an extended blade guard design which reduces the likelihood of accidents and circumstances when a kickback may occur as it emphasizes correct technique and correct cutting zone.

REDUCED INTERRUPTIONS

Smart, semi-automatic SmartTension™ system lowers the risk of under and over tensioning, reducing interruptions or stops for maintenance or adjustment.

HUSQVARNA K1 PACE CHARGED WITH POSSIBILITIES

Now you can move – and cut – in a new way. Without fuel, cords or direct emission. Experience the new Husqvarna K1 PACE high power battery cutter. See what you can achieve as you move freely from one task to another. Indoors or outdoors, no problem. This machine is ready when and where you are. And with all the power you need to get demanding jobs done. With ease.

X-HALT™ BRAKE FUNCTION

For your safety, Husqvarna K1 PACE features X-Halt™, a blade brake function capable of stopping the rotation of the blade in fractions of a second.

A MORE SUSTAINABLE CHOICE

An excellent alternative when work environments require zero direct emission in use. It contributes to significantly lower CO₂ emission than a fossil fuel equivalent and in terms of climate impact across its lifecycle.*

HIGH BATTERY POWER

With the PACE Battery System, you can look forward to the power and performance you expect from equivalent petrol-powered cutters.

K 1 PACE

ACTIVE COOLING

The chargers in the PACE Battery System are designed with Active Cooling to enable fast charging so that you can continue working in an efficient way.

BALANCED DESIGN

For ease of use and to help reduce strain on your body, K1 PACE features a well-balanced, ergonomic design with an optimum centre of gravity.

MAGNESIUM BLADE GUARD

The sturdy, low-weight blade guard covers a large portion of the blade to help protect you from the rotating blade, while the stepless position adjustment helps ensure an optimized cutting position.

BUILT-IN CONNECTIVITY

Now you can stay on top of the runtime, location, service status and more of your machines and batteries. Giving you total control over your fleet for optimised availability and productivity.

* Based on a cradle-to-grave Life Cycle Assessment, LCA, conducted in accordance with ISO 14040 and ISO 14044 and independently verified.

DIAMOND TOOLS FOR HANDHELD CUTTING

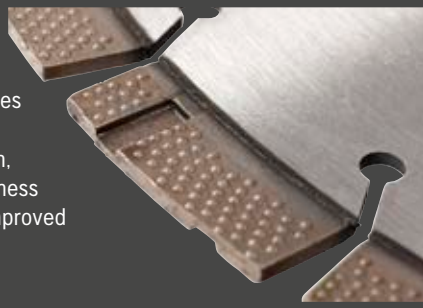

Husqvarna offers diamond tools for cutting in a wide variety of construction materials with all types of handheld equipment, including tools for handheld deep sawing equipment like ring cutters and chain cutters, to standard diamond blades for intensive or less frequent cutting jobs. A diamond blade's properties are determined by its application, the material to be cut and the machine to be used – so to make it even easier for you to find the optimal blade for job, our diamond blades are categorised in different levels and clearly labelled with their intended application.

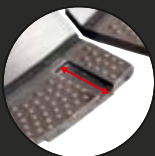

NEW EXO-GRIT BLADES

The new Elite-Cut S35, S45 and S65 blades feature the EXO-GRIT diamond segment. This new design decreases lateral friction, improving the cutting speed and smoothness as well as providing better cooling and improved dust evacuation.

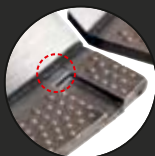

SMARTER, SAFER AND TIME-SAVING

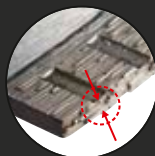

Husqvarna smarter blades feature a number of intuitive and immediately recognisable indicators for increased safety and performance. They feature application markers that make sure you're using the right blade for the right job, wear indicators that reduce the risks of pinching or kickback accidents and a directional arrow that ensures the blade is always mounted correctly.

DIAMOND CHAINS AND GUIDE BARS FOR IMPROVED OUTPUT

The new range of Husqvarna diamond chains and guide bars is developed to ensure that you'll always get maximum output from your cutting equipment. There's always a Husqvarna diamond chain and guide bar combo to meet your requirements.

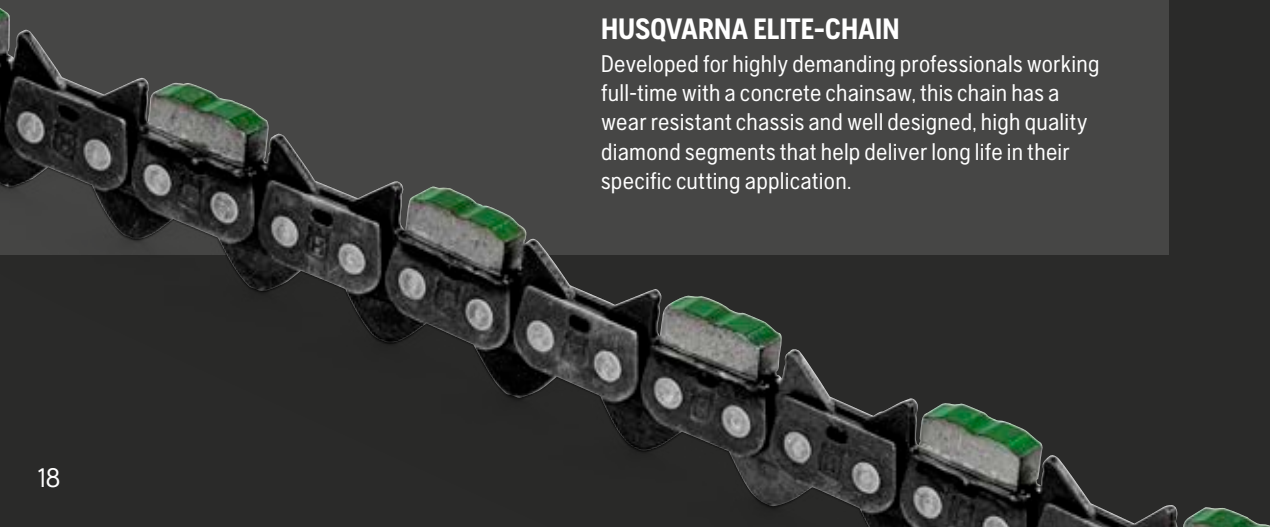

DURABLE AND RELIABLE GUIDE BAR

Laminated guide bar with welding point pattern for improved stiffness and water supply through several nozzles. Lubricated sealed nose bearing prevents overheating and rust.

HUSQVARNA ELITE-CHAIN

Developed for highly demanding professionals working full-time with a concrete chainsaw, this chain has a wear resistant chassis and well designed, high quality diamond segments that help deliver long life in their specific cutting application.

SPECIAL APPLICATIONS

Husqvarna has a long tradition of developing diamond tools for special cutting applications that require operators with special skills. Our innovations in the area of handheld cutting include our ring saws, chainsaw and Cut-n-Break tool. New Husqvarna diamond chains provide higher overall performance, so you can expect both greater cutting depth and longer chain life. The new range includes both Gold and Silver level chains to suit a wide variety of applications.

RING SAW BLADES

A range of gold and silver level blades with self-sharpening segments, designed to create a free-cutting tool regardless of blade rotation direction.

CUT-N-BREAK BLADES

Gold level blades that cut in stages through walls up to 400 mm thick, with a very low diamond tool investment.

RESCUE SAW BLADES

Special rescue cutting blades with vacuum-brazed diamond edge, capable of cutting through various types of construction and vehicle materials at a higher cutting speed.

CHAINS

A range of professional, premium and quality chains for sawing in reinforced concrete and other construction materials of varying hardness.

POWER CUTTERS

PETROL POWER CUTTERS

K770

Max cutting depth	125 mm
Max blade diameter	350 mm
Output power	3.7 kW
Power source	2-stroke engine
Vibrations left/front, right/rear	2.0, 2.3 m/s ²

K770 SMARTGUARD

Max cutting depth	125 mm
Max blade diameter	350 mm
Output power	3.7 kW

ABRASIVE DISCS

Top quality abrasive discs for steel, rail and stone.

ELECTRIC POWER CUTTERS

K 7000

Max cutting depth	155 mm
Max blade diameter	400 mm
Output power	5.5 kW
Power source	220-240 / 200-480 V
Vibrations left/front, right/rear	1.8, 1.8 m/s ²

K 7000 SMARTGUARD

Max cutting depth	155 mm
Max blade diameter	400 mm
Output power	5.5 kW
Power source	220-240 / 200-480 V
Vibrations left/front, right/rear	1.8, 1.8 m/s ²

K 7000 RING

Max cutting depth	325 mm
Max blade diameter	425 mm
Output power	5.5 kW
Power source	220-240 / 200-480 V
Vibrations left/front, right/rear	2.7, 1.9 m/s ²

K 7000 CHAIN

Max cutting depth	450 mm
Output power	5.5 kW
Power source	220-240 / 200-480 V
Vibrations left/front, right/rear	2.7, 2.1 m/s ²

DIAMOND CHAINS

Elite-Chain and Vari-Chain is a range of Gold and Silver level professional, premium chains for sawing in reinforced concrete and other construction materials of varying hardness.

ELITE GUIDE BAR

Gold level 18" guide bar designed to match the high performance of Husqvarna concrete chain saws. The guide bar produces a handy 450 mm cutting depth.

K 4000

Max cutting depth	125 mm
Max blade diameter	350 mm
Output power	2.7 kW
Power source	220-240 V
Vibrations front/rear	3.5, 3.5 m/s ²

K 4000 CUT-N-BREAK

Max cutting depth	400 mm
Max blade diameter	230 mm
Output power	2.7 kW
Power source	220-240 V
Vibrations front/rear	3.2, 3.4 m/s ²

CUT-N-BREAK BLADES

Gold level blades that cut in stages through walls up to 400 mm thick, with a very low diamond tool investment.

BATTERY POWER CUTTERS

K535i

Max cutting depth	76 mm
Max blade diameter	230 mm
Power source	BLi 200 / BLi 300
Vibrations left/front, right/rear	2.1, 2.5 m/s ²

K1PACE

Max cutting depth	144.5 mm
Max blade diameter	361 mm
Power source	B380X / B750X PACE
Vibrations left/front, right/rear	2.0, 1.1 m/s ²

K1PACE RESCUE

Max cutting depth	144.5 mm
Max blade diameter	361 mm
Power source	B380X / B750X PACE
Vibrations left/front, right/rear	2.2, 1.2 m/s ²

HUSQVARNA BATTERY BLADES

Husqvarna battery blades have been developed to provide optimised performance and smooth operating. The blades are specially designed for the K535i and K1PACE and are equipped with silent cores and a number of additional smart features.

UPCARE SERVICE CONTRACTS

Maintenance and service make a vital contribution to overall productivity. However, scheduling and keeping track of service intervals can be time consuming, particularly if you have a large machine park. So why not leave this to us?

UpCare is a service contract designed to keep your business moving. By allowing us to manage your service intervals through proactive maintenance, disruptions to your operation are minimised. The result is reduced downtime and increased cost efficiency.

Here's how Husqvarna UpCare works:

1. You receive a contract proposal for an UpCare service contract.
2. The contract is registered with the equipment and a periodical fee is charged.
3. The equipment is fitted with embedded connectivity so that we can monitor your machine against prescribed service intervals.
4. Any problems? Simply contact your nearest Husqvarna Service Centre.
5. We monitor the machine's service plan and alert when attention is required or scheduled.

UPCARE SERVICE CONTRACTS

**HUSQVARNA UPCARE
LEAVES YOU FREE TO
FOCUS ON YOUR CORE
BUSINESS.**

Contact your nearest Husqvarna dealer or visit husqvarnacp.com for more details.

HUSQVARNA FLEET SERVICES™

For owners of equipment fleet, an upgrade to Husqvarna Fleet Services™ comes with a number of benefits for the entire operation. With Husqvarna Fleet Services™ you easily create inventory lists and keep track of your machines' status, location and service needs.

Through built-in or add-on connectivity, your machine will be ready to collect and transmit critical information of your equipment to your Husqvarna Fleet Services™ portal for further analysis and decision making.

Connect your fleet to get full control of:

- ✓ Fleet inventory
- ✓ Machine availability
- ✓ Runtime/utilisation rate
- ✓ Service planning

Get your Fleet account at:

<https://fleetservices.husqvarna.com/signup> and
download the app from App Store or Google Play.
