

Husqvarna BMS 220ADB

BMS 220ADB ride-on scraper is ideally suited for medium and large-sized applications with the added benefit of being battery operated for increased versatility. It also provides total freedom of movement. This floor scraper has a 6-8 hour run time thanks to its 12 powerful batteries. The battery charger is IP66 with an easy USB logging system for (dis)charge information. BMS 220ADB is very maneuverable with a zero turn radius, non-marking tires and complete hydraulic control. The operator sits on a comfortable seat where they are able to operate the machine with user friendly levers for forward, backward and blade adjustments. Depending on the type of flooring material you would like to remove, you can choose from a wide range of blades or chisels. This floor scraper can easily and quickly remove of all kind of flooring materials including hardwood parquet, ceramics, linoleum, vinyl, carpet, adhesives, glue, tiles, etc.

Easy to transport

This floor scraper has four lifting eyes for easy transportation. The machine can also be lifted by a forklift by using the prepared bracket on the bottom of the machine.

User friendly

The operator sits on a comfortable seat where they are able to operate the machine with user friendly levers for forward, backward and blade height adjustment functions.

Battery operated

This floor scraper has a 6-8 hour run time thanks to its 12 powerful batteries. It provides total freedom of movement. The battery charger which is IP66 is a heavy duty charger and is shock and vibration resistant according to UL1236_7.

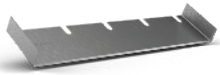

Dual Lift System

This floor scraper is equipped as standard with a Dual Lift System. This allows the operator to adjust both the blade pitch and the blade angle whilst remaining seated in order to have the best performance during operation.

FEATURES

- Battery operated
- User friendly
- Easy to transport
