

Husqvarna Blastrac 1-10DS

The Blastrac 1-10DS walk-behind shot blasting machine offers a high level of versatility making it optimal for medium to large sized surface preparation applications. It is ideal for cleaning and preparing surfaces such as concrete and asphalt before the application of a new coating. It can also be used to prepare steel surfaces. The Blastrac 1-10DS is equipped with a powerful 11 kW blasting motor and separate drive motor for optimal manoeuvrability. The drive motor for self-propelled operation helps maintain speed on ramps and inclines. The Blastrac 1-10DS is equipped with its own height adjusting system for easy transportation.

Easy to use

The shot blasting machine is equipped with a dust hose holder making operation more efficient while blasting.

Self-propelled for your comfort

The machine is equipped with a drive motor for ease of use. It also improves productivity and promotes a more even and consistent blast pattern and surface profile.

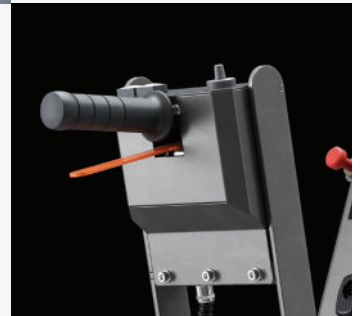

Work virtually dust free

The shot blasting machine has to be connected to a Husqvarna industrial dust collector to create a closed circuit. This means that you are able to work virtually dust free, creating a better working environment.

Ergonomic

This self-propelled shot blasting machine features drive controls on the steering handle.

FEATURES

- Work virtually dust free
- Self-propelled for your comfort
- Easy to use
- Ergonomic
- Resource-smart solution
- Durable blast housing
