

## Husqvarna LFe 60 LAT

The battery-powered LFe 60 LAT is designed for efficient compaction of asphalt and soil. It is ideal for repair jobs and maintenance work such as driveways and parking lots. The brushless electric motor runs on the new Honda battery platform, specifically developed for compaction applications. It is almost maintenance-free and offers a low running cost. The machine is easy to handle, with low noise and zero CO emissions during use. The water tank is removable and easy to refill. The machine is easy to clean and especially suited to compact fresh asphalt, as the bottom plate and the water sprinkling system are designed to prevent the fresh asphalt from sticking to the equipment or creating marks on the ground.

### Hours of ergonomic work

The patented low-vibration handle considerably reduces hand-arm vibrations. Thus, operators experience less fatigue and can work longer hours. This machine is equipped with transport wheels and a foldable handle for convenient transport.

### Smoother workday and lower running cost

You're good to go with a simple push of a button and no need to refill fuel. The low need for maintenance means lower running cost and comfortable ownership for you.

### Zero CO emissions during use

Enjoy the freedom of working with an electric machine. Explore the potential of new applications by running the machine indoors or in urban areas where emissions or noise levels might be regulated.

### Easier yet heavier

The electric motor and its battery is easy to handle and maintain. Yet, the machine in total is heavier than our corresponding petrol compactors, to ensure even better compaction results.

## FEATURES

- Zero CO emissions during use
- Smoother workday and lower running cost
- Hours of ergonomic work
- Easier yet heavier
- More work with the right amount of water

Technical Specifications	
<b>ENGINE</b>	
Battery type	Li-Ion
Battery voltage	72 V
<b>BATTERY</b>	
Battery voltage	72 V
Battery type	Li-Ion
<b>DIMENSIONS</b>	
Product size width	350 mm
Product size height	966 mm
<b>SOUND AND NOISE</b>	
Sound power level, guaranteed (LWA)	100 dB(A)
Sound pressure level at operators ear	85 dB(A)
<b>VIBRATIONS</b>	
Vibrations left/front handle	1.53 m/s <sup>2</sup>
Vibrations right/rear handle	1.53 m/s <sup>2</sup>
<b>PACKAGING</b>	
Packaging length	843 mm
Packaging width	612 mm
Packaging height	820 mm
Packaging volume	0.423 dm <sup>3</sup>
